Career Profile						
<p>Intend to contribute to the higher education of India in a substantive manner. It requires academic, research and administrative role to be performed. Keeping in mind this aspect, I want to equip myself to transform the challenges facing higher education in to opportunities. I want to work in an area and in a manner that could make higher education more meaningful for all the stake holders. I am quite clear about the fact that if India aspires to be a meaningful global player in the twenty-first century, the higher education needs to be over hauled. While espousing this idea, I never miss the fact India remains to be committed to the weaker section of the society like woman, the marginalized and other such sections. The efficiency of the education system must be judged in the light of the mandate of the idea and notion of justice in the Indian context. My aim is to work and act in this direction with a firm resolve. Integrity, honesty, simplicity, humility and high moral character are the guiding principle of my professional, individual and social actions</p>						
Administrative Assignments
